PCC Markers

Revised September 2020

Assessment markers are the indicators that an assessor is trained to listen for to determine which ICF Core Competencies are in evidence in a recorded coaching conversation, and to what extent. The following markers are behaviors that represent demonstration of the Core Competencies in a coaching conversation at the Professional Certified Coach (PCC) level. These markers support a performance evaluation process that is fair, consistent, valid, reliable, repeatable and defensible.

The PCC Markers may also support coaches, coach trainers and mentor coaches in identifying areas for growth and skill development in coaching at the PCC level; however, they should always be used in the context of Core Competency development. The PCC Markers should not be used as a checklist in a formulaic manner for passing the PCC performance evaluation.

Competency 1: Demonstrates Ethical Practice

Familiarity with the ICF Code of Ethics and its application is required for all levels of coaching. Successful PCC candidates will demonstrate coaching that is aligned with the ICF Code of Ethics and will remain consistent in the role of coach.

Competency 2: Embodies a Coaching Mindset

Embodying a coaching mindset—a mindset that is open, curious, flexible and client-centered—is a process that requires ongoing learning and development, establishing a reflective practice, and preparing for sessions. These elements take place over the course of a coach's professional journey and cannot be fully captured in a single moment in time. However, certain elements of this Competency may be demonstrated within a coaching conversation. These particular behaviors are articulated and assessed through the following PCC Markers: 4.1, 4.3, 4.4, 5.1, 5.2, 5.3, 6.1, 6.5, 7.1, and 7.5. As with other Competency areas, a minimum number of these markers will need to be demonstrated to pass the PCC performance evaluation. All elements of this Competency will also be evaluated in the written assessment for ICF Credentials (Coach Knowledge Assessment).
